

Lakecliff on Lake Travis

POA Meeting

Agenda

- Call to Order Mike
- Certification of Quorum Mike
- Review/Approval of Minutes Mike
- Review/Approval of Financial Statements Laura
- Director Election Dan Wittner Position up for election for effective January 2022
- ACC Update Steve
- Firewise Mike/Dan
- Security Al/Dan
- Website/Member Communication Laurie/Dan
- Cottage Landscape & Paint Laurie/Mike
- New Legislation compliance Dan
- Conflict of Interest Policy Mike
- Water/Irrigation Dan/Laurie/Mike/Steve
- Roads Laurie/Mike
- Fence Painting Laurie/Mike
- Budget 2022 Board
- Workshops for Water/Irrigation and Security Mike/Dan
- Homeowners Forum (Limited to 2 minutes per Person)
- Adjourn

Call to Order,
Certificate of
Quorum, Previous
Meeting Minutes,
Financial Updates

- 3508 Kahala Sunset Madigan Homes Bishop Residence Remodel
- 22508 Cliff Crossing Sendero Homes Walther Residence
- 2705 Stableford Court Canyon Homes Spec House

New Construction Projects approved in October 2021:

- 2923 Cliff Point Atkins Residence
- 3013 Cliff Overlook Dubose Residence

Other Projects Approved in October 2021:

• 3054 Cliff Overlook – Stephany Residence – Outdoor Pavilion

Firewise Update

Firewise

History

- This process began in 2019 culminating in a recommendation to the POA Board that Lakecliff on Lake
 Travis adopt the Firewise standard for lot care to eliminate as many variables as possible in our control
 to fight wildfires.
- On January of 2021 at the POA Annual Meeting this measure was adopted unanimously voting members and subsequently, was included in the First Amendment to the consolidated CCR's which were filed with Travis County on January 28, 2021.
- Article 2, Section 2.3 (q) has the details of the requirements for all residents.
- Specific requirements that have been recommended and are required prior to the end of February 2022.

Firewise (con't) – Standards of Care

SPECIFICATIONS

Empty Lots

- Grass mowed and maintained on a regular basis to no higher than 8" (Please ensure any stranded grass is not dead or dried-out)
- POA will monitor mowing requirements yearly based on weather and mow the lots a minimum of 2 times (If more mowing is required, the POA will notify the owner)
- All trees trimmed-up to a minimum of 6'; however, 8' is preferable All deadwood removed from existing trees
- All dead brush, dead trees, invasive species of brush, shrubs or other debris to be removed from under existing trees or other areas across the site

- Young cedar to be removed
 Mature cedar to be pruned-up from the ground
 Deadwood and leaf litter should be removed or mulched at site and evenly spread
- No burning of any rubbish at any time
- Slopes or Gullies to the Lake must be maintained in the same condition (As some of these areas are severely steep, it may not be feasible to maintain.

Please check with Matt Moore)

Homes

- Yards and landscaping to be maintained in a healthy condition
- Green Grass Lawn
- Xeriscape
- Sprinkler systems must be installed and maintained Create a fire-free area within 5' of the home using non-flammable landscaping materials such as rocks, crushed stone and gravel (*No mulch is to be used in* the 5' fire-free area)
- All trees trimmed-up to a minimum of 6'; however, 8' is preferable (where possible) All deadwood removed from existing trees
- Trim branches away from the home
- Plan landscaping with generous spacing between tree crowns
 All dead brush, dead trees, invasive species of brush, shrubs or other debris to be removed from under existing trees or other areas across the site
- Young cedar to be removed
- Mature cedar to be pruned-up from the ground Slopes or Gullies to the Lake must be maintained in the same condition (*As some of these areas are severely steep, it may not be feasible to maintain.*

Please check with Matt Moore)

Outdoor Fire Pits and Fireplaces

- All fire pits and fireplaces must have proper screens on the fire area and chimneys

 No outdoor fire pits, fireplaces, BBQ grills should ever be left unattended until all live coals or embers are extinguished

 It is recommended to have fire extinguishers available incase the embers begin to exceed the fire contained area

18

Firewise (con't) — Compliance

- In the event your property is identified as a wildfire hazard, you will receive an email notice and a
 formal written request to bring your property into compliance. You will have 30 days to remedy
 the issue(s). If the property owner deems that they cannot come into compliance in 30 days, they
 may obtain an extension. Of up to an additional 30 days.
- During this time, the POA Board will make Matt Moore available to consult on how to best achieve compliance. If the property owner needs assistance with approved lawn care providers to comply, please contact the POA Board and we will have Rocky assist you.
- If the property owner fails to comply, the POA Board will notify the property owner that the POA will contract on the property owner's behalf with an approved lawn care service provider to bring the property into compliance. This will be charged back to the property owner at cost plus a service fee of \$100. All costs/fees are due within 30 days. The POA Board reserves the right to use remedies for non-payment as set forth in the CCR's.

Infrastructure -Security

Security

- Survey Results The Board did a survey of the members conducted with Goodwin on their site regarding interest in having Security
- The survey showed that ~60% of POA members would like to see Security added
- The POA Board moved to look at options for security
 - Guards at the Front Gate
 - Greeters at the Front Gate and adding Remote monitoring by a Professional Security company
 - Technology solutions that would enable a more modern approach to managing the Front Gate to include improving the technology at the Front Gate
- We have had substantial guidance from professional law enforcement officers that are residents of the community
 - Linda McAdoo
 - Barrett Wilson

Security (con't)

- Option Keys
 - Cost
 - Flexibility
 - Ability to allocate costs
 - Technology that will modernize the community and add the most security
- Next Steps
 - Set-up Security Committee Workshops in November
 - Post Committee Workshops, Security Committee to make recommendation to the POA Board
 - Timing is to have a recommendation in late November to early December

Aqua Texas Meeting

Attendees

Bob Laughman – President of Aqua Texas

Scott Foltz – Manager Aqua Texas

Mike Lange

Steve James

Laurie Chapman

David Chapman

Dan Wittner

Aqua Texas Discussion

- How many homes is Aqua anticipating serving in Spicewood in the SH 71/Pale Face Ranch Rd./CR 404 area over the next 10 years? Aqua has put in the infrastructure to support a minimum of 1200 connections. This includes wells and Lake Travis piping that feeds to the water plant in BCL.
- Do these numbers include the Thomas Ranch and the Hines project? Aqua has had conversations with Hines but that has not progressed. At this point, they are not anticipated to support Hines or Thomas Ranch.
- How many homes is the current Aqua system(s) for Barton Creek and Lakecliff engineered to handle? 1200 Connections
- Will the new Aqua intake/filtration system at BCL and the current wells support the corridor of Paleface Ranch Road, State Hwy 71 and CR 404 for drinking water? See above.
- Will some sort of a larger water holding facility (tank) be required? Not at this time
- Is Aqua's contract with LCRA Interruptible? No
- How does this affect Lakecliff? Does not.
- How will Aqua Load Balance?
 - How does Aqua manage water to/from Lakeside and Lakecliff? This is being managed real time as required
 - Are additional water/pipelines required to meet the additional demand? Where will they be located? No
- If there is a drought, what is Aqua's plan?
 - Drill new wells.- Have 3 wells already and they are working. Other water intake can facility is sufficient
 - Pipe in No
 - Other None
- What will be the effect on the current sewage facilities and effluent with the addition of the new homes that are proposed? Aqua is investing in a new sewage treatment plant in BCL. It will be sufficient for capacity. Effluent treatment and distribution is being evaluated. Some will be treated from type 2 to type 1 for use on golf courses and yards
- What are the key areas the POA should focus on to ensure our residents have sufficient water going forward for years? Work with Central Texas Water Coalition (CTWC) to have leverage on LCRA.
- Is Aqua working with the CTWC? Not at this time but they will work with us to do this.
 - How can we partner with Agua to accomplish this? Continue to build a strong partnership and professional relationship with Agua.

Aqua Texas — New Plant in BCL

Aqua Texas – Water Quality Report

Aqua did an initial water quality analysis for the purpose of assessing hardness and potential corrosion, results attached, all was good. The test that are used to ensure proper treatment, Turbidity (measure of cloudiness & effectiveness of the filtration), chlorine residual (disinfection), pH, and water temperature are monitored continuously by instruments at the plant. Control systems shut down the plant if they are outside allowable ranges. Bacteriological test are run monthly as with the old plant and all other chemical monitoring is conducted by the state (TCEQ) on a schedule they set and it varies depending on the type of analysis.

LCRA Meeting

Bob Rose – Chief Meteorologist Kelly Payne – VP Water Operations Monica Masters – VP Water Resources David Chapman

LCRA Meeting Highlights

Fall and Winter Weather Outlook

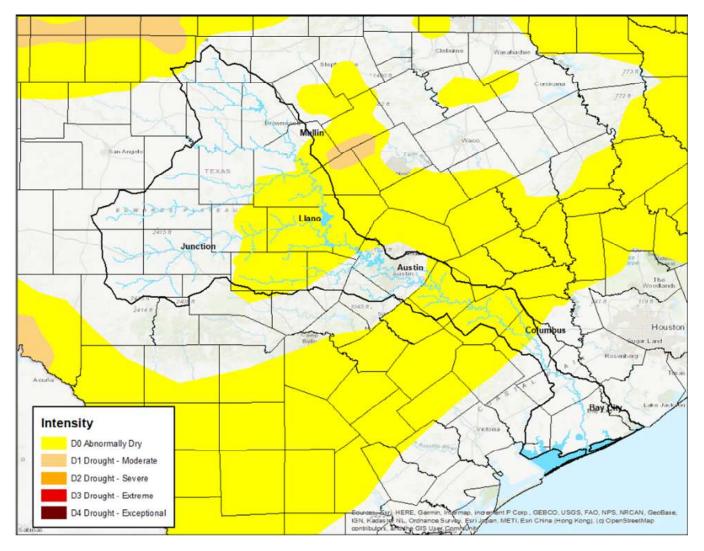

- Warmer-than-normal temperatures expected this fall
- Rainfall averaging below normal beginning in November
- Tropical weather could still be a factor for rain in October
- A weak La Niña expected to develop and persist through winter
- Winter temperatures averaging milder than normal
- Winter rainfall averaging below normal
- La Niña forecast to weaken and dissipate next spring

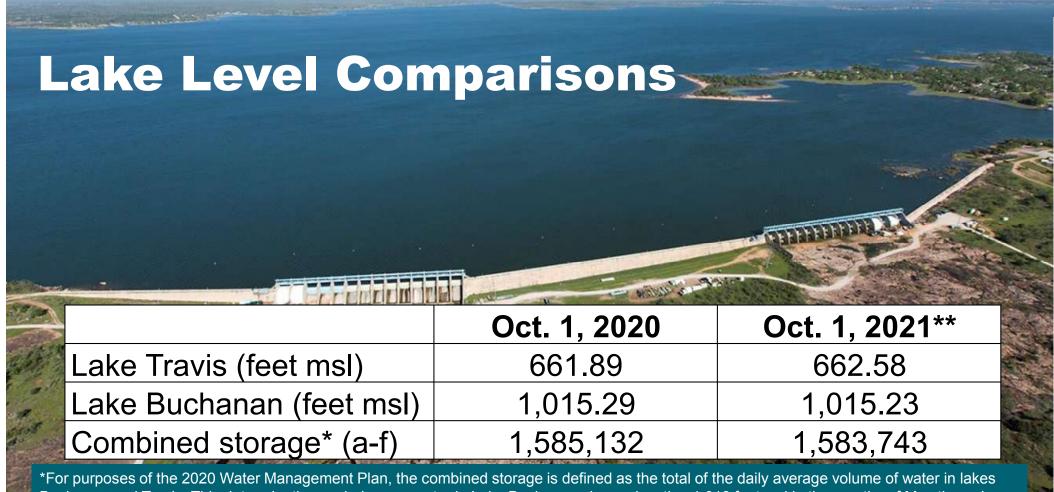

U.S. Drought Monitor

Lower Colorado River Basin

As of Sept. 28, 2021

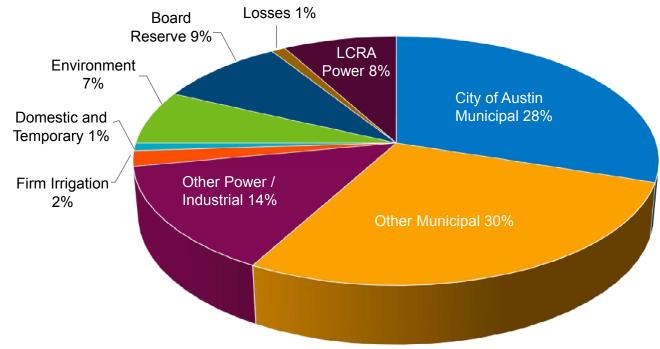

*For purposes of the 2020 Water Management Plan, the combined storage is defined as the total of the daily average volume of water in lakes Buchanan and Travis. This determination excludes any water in Lake Buchanan above elevation 1,018 feet msl in the months of May through October or above 1,020 feet msl in the months of November through April and any water in Lake Travis above elevation 681 feet msl.

^{**} Effective May 27, 2021, storage volumes for Lakes Buchanan and Travis are based on the Texas Water Development Board volumetric surveys published in 2020 (Buchanan) and 2021 (Travis).

Firm Raw Water Contracts and Commitments

Total Annual Water Use

Type of Water Use	2020 (acre-feet)	2021 Projected* (acre-feet)	% Change
Municipal (firm)	251,970	256,000	2% Increase
Industrial (firm)	50,343	75,000	49% Increase
Recreational and Irrigation (firm)	7,568	2,000	74% Decrease
Agricultural (interruptible)	247,573	181,000	27% Decrease
Environmental	115,586	41,000	65% Decrease
Total Water Use	673,040	555,000	18% Decrease

^{*}Based on measured use for January through September and projected use for October, November and December.

Irrigation

Irrigation Discussion

- Questions in previous POA Board Meeting regarding the cost of irrigation water
- POA has done a preliminary review of our current cost structure and compared this to like communities
- Current Cost
 - LGC charges POA \$2.65 per 1000 gallons of water
 - LGC charges \$800 per month for pump maintenance
 - Rocky charges \$380 per month for meter reading
 - POA charges homeowners using water \$4.20 per 1000 gallons of water
 - Year to date POA has generated revenue of \$50,000 with a net loss of ~\$5000
 - POA has been advised LCRA rates are increasing as of 1/2022 and LGC will pass through additional expense of \$0.18 per 1000 gallons
 - We have future expenses for maintenance of pipes and installation of new pipes not previously installed
- BCL Irrigation Costs
 - \$70 per month per home/lot owner (everyone pays)
 - \$1.70 per 1000 gallons of water

Irrigation Discussion (con't)

Spanish Oaks and Rough Hollow Pricing

Irrigation Discussion (con't)

- Comparison of BCL and Lakecliff Homeowners
 - YTD Cost of Irrigation Water to residents of Lakecliff is ~\$50,000
 - If Lakecliff went to the BCL model, the cost to the residents would increase to ~\$161,000
 - Primary drivers are everyone pays a flat \$70 per month per lot
 - Many of Lakecliff residents would incur a significant burden in the BCL model
- Comparison of Spanish Oaks/Rough Hollow and Lakecliff Homeowners
 - Cost of water would increase dramatically as usage of in-home water and irrigation water would drive prices into the upper zones of pricing
 - Based on YTD average usage by homeowners at an average of 400,000 gallons per month not including in-home water, prices would jump to an average of ~\$10.37 per 1000 gallons or average cost would go from today at ~\$1708 per year to ~\$4100 per year
- Next Steps
 - Have Irrigation Committee Workshop in November
 - Irrigation Committee to provide update to POA Board in late November or Early December

Roads Update

Roads Update

- POA Board met with Loan Star Paving Jim Ramming
- Examined all roads
- Determined Base is Good
- Board determined that due to condition of streets and amount of construction, we will postpone any road work to 2023
- At this time, we have ~\$166,000 in reserves for road work
- Anticipated costs are \$120,000 for sealing only (without any repairs) to \$400,000 based on work required
- Additional reserves to be applied in 2022

Fence Painting Update

Fence Painting and Repair

- Governing Documents Ownership and Maintenance
 - Article 1, 20 Definition of Fencing
 - Article 2, Section 2.7 (c) Maintenance of Fence
 - Subdivision Fence maintenance and repair shall be the responsibility of the Association. The Association reserves a permanent maintenance easement ten feet (10") in width (or to the subdivision line) on each side of the fence.

Issues

- Condition of fences are deteriorating
- A large portion of the fence has not been painted in a long time and needs painting and repair
- Previous painting was in 2018
- Paint was applied to rotting infrastructure

Next Steps

- POA Board has requested and received proposals at \$19,600
- As this is considered maintenance, the Board will move forward with this initiative using reserves set aside to maintain the fences

Budget 2022

Budget and Assessments

- Growth 41% increase in homes
- Increased expenses As community grows, the expenses for occupied homes is far more expensive that lots due to strain on infrastructure
- Reviewed Assessments back to 2008
 - If POA had increased at 20% since 2008, current assessment would be \$3252
 - If POA had increased at 10% since 2008, current assessment would be \$1139
- Comparison to other communities
 - BCL Own roads and Irrigation \$1296 annual assessment in 2021 and increasing to \$1450 in 2022, special assessments for roads of \$450 per lot in 2021
 - Spanish Oaks Own roads \$4400 annual assessment
 - Rough Hollow \$1550 annual assessment
- Assessment allocations
 - Roads
 - Irrigation
 - Security
 - Landscaping
 - Fencing

Summary of Infrastructure Impacts
